7 Submit Dissertation

Self-archive your doctoral dissertation in OUSAR		
Based on the Degree Regulations amended on April 1, 2013, it is required that the full texts of doctoral dissertations be made openly accessible via the Internet, in lieu of making them publicly available in the form of printed publication, which was previously required by the Regulations. According to the amended Regulations, public Internet access to doctoral dissertations must be provided with the cooperation of the university that grants the doctoral degree to the dissertation author. At Okayama University, dissertations are made publicly accessible by means of the Okayama University Scientific Achievement Repository (OUSAR). Aside from OUSAR, the National Diet Library (NDL) also stores full-text data of doctoral dissertations and makes them publicly available via the Internet, in principle.		

□	Due date of Full text of the thesis « P D F »	Contents of the data submitted must be identical to one which is accepted in Meeting of a Degree. Submit the data in PDF format by Email or USB memory stick by September 20 (Degree Conferment as of September 25) or March 19 (Degree Conferment as of March 25). Maximum file size of Email is 10MB. USB memory stick is returned. CD-ROM is not accepted. If it is impossible to submit PDF data, other format (MS Word, etc.) is also acceptable. The file title of the thesis's main text data must be “Your Student No. – fulltext” . Do not encrypt, set passwords, and restrict printing to data. E-mail : gnstoffice@adm.okayama-u.ac.jp

Exception		
If it is impossible to provide open access to a doctoral dissertation within one year of the conferment of the doctoral degree due to an unavoidable reason, a summary of the dissertation will be made openly accessible online, in lieu of its full text, subject to approval of the University. While possible cases constituting an “unavoidable reason” include the situations listed below, any case requires approval of the University to be recognized as an unavoidable reason. If you have any reason for which open access to the full-text data should be restricted, specify in the form “Request for Self-Archiving Dissertation in Okayama University Scientific Achievement Repository.” Note, however, that the full-text data must be made publicly accessible if the approved “unavoidable reason” has ceased to exist. The same treatment applies to data to be made publicly available by the NDL. Also note that even if a situation concerning your dissertation is recognized to constitute an unavoidable reason, the University and NDL may offer full-text data of the dissertation for reading, upon request. Possible cases constituting an unavoidable reason: - There is a restriction regarding copyright and/or personal information. - The case concerns a patent application. - The dissertation is planned to be published as a book and/or in a journal. ... etc. * A summary of the dissertation will also be made publicly accessible, in lieu of its main (full) text, in the case that as a result of confirmation by Okayama University Libraries regarding related copyrights held by the publisher, it proves impossible to provide open access to the dissertation's main text data via the institutional repository within one year of the degree conferment.		

□	Data of the thesis summary «Style Kou 2»	If it is impossible to provide open access to a doctoral dissertation within one year of the conferment of the doctoral degree due to an unavoidable reason, [Abstract of Thesis « Style Kou 2 »] will be made openly accessible online. We use the data you submitted in application period. If you change the data, submit the latest one.

Copyright		
- If the dissertation was co-researched and/or co-authored, obtain consent from all other researchers/authors in advance. In addition to consent for the use of the dissertation data in OUSAR, consent must also be obtained regarding allowing the data to be publicly accessible via the Internet as your doctoral dissertation. - If the dissertation contains copyrighted contents produced by others, obtain consent from the copyright holder(s) in advance regarding the use of the corresponding data in OUSAR. (regarding supplementary paper(s) and reference paper(s), along with the primary dissertation)
